

Generate more interest by grouping the entire Fortune Series (sku 395) together and displaying all three size options next to each other. Presenting the items together makes it easy to cross-promote and sell additional items.

Grouping the lamps together is also a great way to show customers all of the color options available in the series.

This method can be used with other Eangee lamps that are available in multiple sizes.

395 t - Fortune Table Lamps

Stack the Fortune Table Lamps to create a space-saving, vertical display. The cords can be hidden by running them through the center of the stack and underneath the bottom lamp.
